

# Annual Notification

**Date** : April 2, 2017

[Download article as PDF](#)

The District has adopted an Integrated Pest Management (IPM) policy. This policy includes notifying parents/guardians of pesticide use. During the school year, it may be necessary to apply pesticides at your child's school to avoid serious health problems posed by pests and/or maintain the integrity of a structure. However, should you feel that your child's or your (for school staff) health and/or behavior could be influenced by exposure to pesticide products, you are notified as follows:

-An application of products on the Approved List may

be applied during the school year (see attached list of pesticide products that have been approved for use at District sites).

*f*-In the event the use of a product is required that is not on the Approved List, you will be notified 72 hours in advance. (Exception: Emergency circumstances that warrant an immediate response).

-Additional information regarding pesticide products, including those on the District's Approved List, is available online at <http://www.cdpr.ca.gov>

Please complete, detach and return the form below to the school's main office, indicating whether you wish to be pre-notified each time a pesticide is scheduled to be used at the school.

=====  
=====Cut here and return if  
applicable=====

I signed up directly for email notifications at <http://ipmnotice.info/parents> to be notified every time a pesticide application is to take place at my child's school in addition to this annual notification. I

understand that the notification will be made via email at 6pm three days prior to the application. Emergency notification will be made as soon as possible following the application of the pesticide.

I would like to be notified every time a pesticide application is to take place at my child's school in addition to this annual notification. I understand that the notification will be made via email at 6pm three days prior to the application. Emergency notification will be made as soon as possible following the application of the pesticide.

I do not need to be notified every time a pesticide application is made at the school. I understand that I am receiving this annual notification today.

Child's Name: \_\_\_\_\_
